

# British Gas Tunisia

## ➔ Présentation

Gas is a growth market worldwide. We are already a member of a significant international player. With an outstanding track record, a strong financial position and ambitious growth targets, our future is extremely exciting.

BG Group is the largest producer of gas in Tunisia, supplying approximately 50% of the domestic gas demand from the Miskar field. In addition, BG Group holds two exploration permits in the Gulf of Gabes with a combined surface area of 4 088 sq km.

BG Group intends to undertake further exploration activity in Tunisia and to seek further investment opportunities utilizing its gas chain expertise.

BG Group submitted a Hasdrubal plan of development which was approved by the Tunisian government in June 2006. Progress with the development has been made, and all major contracts have been awarded. First gas from this joint project (ETAP, BG 50/50) is planned for the first half of 2009. Hasdrubal is a \$1.2 billion project and once production commences, BG will be the largest producer of gas, LPG and liquids in Tunisia.

## Recrutement ➔

**Postes proposés :** Engineering and Operations, Petroleum Engineering, Geosciences (Geology & Geophysics)

**Contact :** Manel BEN BELAID

**Fonction :** HR Advisor

Tél : (+216) 71 108 332, Email : manel.benbelaid@bg-group.com

**Profils recherchés:** We're looking for people with real intellectual ability, who are equally effective, whether they're working as part of a team or leading one. Also, given the worldwide nature of our operations, you should be open to working with different cultures, and willing to work internationally.

Candidates should be able to demonstrate a record of high performance and delivery, fluency in the French and English languages, display creative thinking and a self-developing approach that fits with BG Tunisia's ambitions and high expectations.

## Message adressé aux visiteurs

Many companies go on about fantastic opportunities, but here's one that knows what it's talking about; Natural gas. The fastest growing energy market in the world today. It's exciting. It's challenging. It's inspiring. Which is why there's never been a better time to join BG Group. Drive and ambition are two key qualities you'll need. There are a whole host of opportunities available to you at BG Group, and to make the most of them you must be someone who's always keen to learn, and wants to gain as wide an experience as possible.
