

About the company

Talan is an alternative actor to big consulting and IT services companies, offering a pragmatic approach to the consulting business based on : "Knowing how to make available to our clients the best functional and technical skills, in a cost effective way and guarantee a long lasting relationship with the our clients"

Talan, as specialised in new Information Technologies, focuses its business expertise in the service providers businesses (Finance, Telecom, Utilities and Public services). With more than 300 consultants in France, Belgium, UK, NY, Hong kong and Tunisia, Talan offers, due to its unique business model an innovative and exciting environment to gain the loylty of its consultants and clients.

Talan has formed a partnership with Systel, a near shore IT center in Tunisia, offering IT projects by fixed price and providing a solution to its clients cost constraints, while guaranteeing a high quality of service and deliverables, as well as service proactivity.

Message to visitors

Talan offers you highly innovative and exciting work environments within its prestigious clients filled with values such as commitment and entrepreneurial spirit, transparency in operating modes, respect of our clients as well as our Talan's and team work which brings us together and differentiates us.
